

## **2025 FOCUS TOPICS**

### **Nursing/Midwifery Focus 200–500 words**

If you have been involved in an innovative project or undertaken research relevant to the below topics, consider writing a focus article.

Articles should be simple and to the point. They should highlight the importance of the project/research to nurses, midwives or nursing and midwifery and present any practical outcomes that have improved nursing/midwifery work or patient care, or helped nurses resolve issues critical to their area of practice.

Below are the topics and due dates for 2025.
